Abdul Riaz Khan

Associate Manager, RMG at Tech Mahindra, SHARDA CENTRE, OFF KARVE ROAD, PUNE, Maharashtra.

Dear hiring manager,

I am writing to express my sincere interest in the Data Scientist position at Tech Mahindra, as advertised on naukri.com. With a strong educational background in B-Tech, specializing in Computer Science Engineering, and hands-on experience in Python, pandas, Numpy, SKLearn, Seaborn, Matplotlib, I am excited about the opportunity to contribute my analytical skills and passion for data to your innovative team.

In my academic pursuits, I have successfully completed coursework in Python for DataScience and Introduction to Data Science where I gained a deep understanding of Cleaning, Analyzing, Plotting of data. My academic achievements, combined with my practical experience working on projects like Deaths due to air pollution, etc, have equipped me with the technical skills necessary for success in a data-driven environment.

During my recent paid internship at Academor, I had the opportunity as a team leader and developed a project `Loan Approval Prediction` where I applied advanced statistical techniques and machine learning algorithms to derive meaningful insights from complex datasets.

Enclosed is my resume, which provides more details about my academic background and professional experiences.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with the goals of Tech Mahindra and contribute to the continued success of your data science team.

Sincerely,

Sandeep Talla
